Immediate (Acute) Health Effects

Inhalation Toxicity:	Harmful if inhaled. Moderately toxic by inhalation. High concentrations are moderately irritating to the eyes, nose, throat, and lungs.
Skin Toxicity:	Skin contact may cause minor irritation consisting of transient redness and/or swelling. May be absorbed through skin, but it is unlikely that harmful effects will occur unless contact is prolonged, repeated, and extensive.
Eye Toxicity:	Severe irritation and/or burns can occur following exposure. Direct contact may cause impairment of vision and corneal damage. Rinsing of the eye should take place immediately.
Ingestion Toxicity:	Harmful if swallowed. Moderately toxic if swallowed. Ingestion may cause irritation of the gastrointestinal tract and gastrointestinal discomfort with any or all of the following symptoms: nausea, vomiting or diarrhea.
Acute Target Organ Toxicity:	Corrosive to the eyes and mildly irritating to the skin., Moderate respiratory irritant

Prolonged (Chronic) Health Effects

Carcinogenicity:	This product is not known or reported to be carcinogenic by any reference source including IARC, OSHA, NTP or EPA.
Reproductive and Developmental Toxicity:	No reproductive or developmental risk to humans is expected from exposure to this product.
Inhalation:	There are no known or reported effects from chronic exposure except for effects similar to those experienced from acute exposure.
Skin Contact:	There are no known or reported effects from chronic exposure except for effects (if any) similar to those experienced from acute exposure.
Skin Absorption:	May be absorbed through skin, but it is unlikely that harmful effects will occur unless contact is prolonged, repeated, and extensive.
Ingestion:	There are no known or reported effects from chronic exposure except for effects similar to those experienced from acute exposure.
Sensitization:	This material tested negative for skin sensitization in humans. This product contains residual amounts of formaldehyde. Those individuals who are sensitive to the effects of formaldehyde may experience an allergic skin reaction to this product.
Chronic Target Organ Toxicity:	Product is expected to have the following target organ effects:, Eyes, Skin
Supplemental Health Hazard Information :	This product may release formaldehyde during use. Formaldehyde is listed by IARC as a human carcinogen (Group 1 substance). In vitro mutagenicity tests did not reveal any adverse effects. Repeat exposure animal studies did not reveal any unusual effects. The only effect noted was due to the irritant nature of this product.

4. FIRST AID MEASURES

General Advice:	Call a poison control center or doctor for treatment advice. For 24-hour emergency medical assistance, call Arch Chemical Emergency Action Network at 1-800-654-6911. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
Inhalation:	IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Skin Contact:	IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Eye Contact:	IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Ingestion:	IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

5. FIRE FIGHTING MEASURES

Flammability Summary (OSHA):	Product is not known to be flammable, combustible, pyrophoric or explosive.
<u>Flammable Properties</u> Flash Point: Autoignition Temperature: Fire / Explosion Hazards:	Not applicable No data. Material will not ignite or burn. This material is not expected to burn unless all the water is boiled away. The remaining compounds may be ignitable.

Hazardous Combustion Products: Oxides of nitrogen Upper Flammable / Explosive Limit, % in air: Lower Flammable / Explosive Limit, % in air:

6. ACCIDENTAL RELEASE MEASURES

Personal Protection for Emergency Situations:	Additional protective clothing must be worn to prevent personal contact with this material. Those items include but are not limited to boots, impervious gloves, hard hat, splash-proof goggles, impervious clothing, i.e., chemically impermeable suit, self-contained breathing apparatus.
Spill Mitigation Procedures	
Air Release:	Vapors may be suppressed by the use of water fog. Contain all liquid for treatment or neutralization.
Water Release:	This material is soluble in water. Notify all downstream users of possible contamination. Divert water flow around spill if possible and safe to do so. Continue to handle as described in land spill.
Land Release:	Create a dike or trench to contain materials. Absorb spill with inert material (e.g., dry sand, clay, earth or commercial absorbent), then place in a chemical waste container. Contain all liquids for treatment or disposal.
Additional Spill Information :	Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all non- essential personnel. Dispose of spill residues per guidelines under Section 13, Disposal Consideration.

7. HANDLING AND STORAGE

Handling:	Avoid breathing mist or vapor.Do not take internally. Avoid contact with skin, eyes and clothing. Upon contact with skin or eyes, wash
Storage:	off with water. Avoid breathing vapor or mist. Keep container closed. Store in a cool, dry place. Isolate from incompatible materials. Do not expose to direct light.Store in a cool, dry place. Isolate from incompatible materials. Avoid direct exposure to sunlight or
Shelf Life Limitations:	ultraviolet (UV) light sources. One year minimum if stored in the original container in a cool, dry place.

Incompatible Materials for Storage: Refer to Section 10, "Incompatible Materials."concentrated acids Strong oxidizing agents Do Not Store At temperatures Above: 50 DEG°C / 122 DEG°F

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation:

Local exhaust ventilation or other engineering controls are normally required when handling or using this product to keep airborne exposures below the TLV, PEL or other recommended exposure limit.

Protective Equipment for Routine Use of Product

Respiratory Protection :	Wear a NIOSH approved respirator if any exposure occurs.
Respirator Type :	A NIOSH approved full-face air purifying respirator equipped with a
	combination organic vapor/formaldehyde/P100 filter cartridge. Air purifying
	respirators should not be used in oxygen deficient or IDLH atmospheres or if
	exposure concentrations exceed ten (10) times the published limit.
Skin Protection :	Wear impervious gloves to avoid skin contact.
Eye Protection:	Use chemical goggles.
Protective Clothing Type:	Impervious
General Protective	Emergency eyewash should be provided in the immediate work area.

10. STABILITY AND REACTIVITY

Stability and Reactivity Summary:	Stable under normal conditions. This product may become unstable at elevated temperatures after the removal of water. Not sensitive to mechanical shock. Not sensitive to static discharge. Decomposes slowly. Product will not undergo hazardous polymerization.
Conditions to Avoid:	Avoid direct exposure to sunlight or ultraviolet (UV) light sources., High temperatures
Chemical Incompatibility:	Strong oxidizing agents, concentrated acids
Hazardous Decomposition Products:	Formaldehyde, Carbon monoxide, Carbon dioxide, Oxides of nitrogen
Decomposition Temperature:	No data

13. DISPOSAL CONSIDERATIONS

CARE MUST BE TAKEN TO PREVENT ENVIRONMENTAL CONTAMINATION FROM THE USE OF THE MATERIAL. THE USER OF THE MATERIAL HAS THE RESPONSIBILITY TO DISPOSE OF UNUSED MATERIAL, RESIDUES AND CONTAINERS IN COMPLIANCE WITH ALL RELEVANT LOCAL, STATE AND FEDERAL LAWS AND REGULATIONS REGARDING TREATMENT, STORAGE AND DISPOSAL FOR HAZARDOUS AND NONHAZARDOUS WASTES.

Waste Disposal Summary :	Spent or discarded material is not expected to be a hazardous waste.
Disposal Methods :	As a nonhazardous waste, it should be disposed of in accordance with local, state and federal regulations.
Potential US EPA Waste Codes :	Not applicable
